

**OUR STATE-OF-THE-ART CONFIG LAB,
WAREHOUSING CAPABILITIES AND
QUALITY CONTROLS ENABLE US TO**

MEET THE CHALLENGES OF 

EQUIPMENT STAGING AND CONFIGURATION

Hardware Configuration and Staging Services from Bailiwick provide a professional methodology to the task of installing specific functionality onto devices needed for your deployment. Whether it is configuring routers, burning images on servers or any of the numerous processes that occur prior to hardware deployment, Bailiwick's staff of technicians and operations support personnel ensure the entire process will meet all performance specifications. ◦ Beginning with our warehousing/staging capabilities prior to configurations through to the delivery of the quality-tested end product Bailiwick is a partner built to meet the challenges of I.T.

KEY BENEFITS

HARDWARE CONFIGURATION AND STAGING SERVICES FROM BAILIWICK FEATURE THE FOLLOWING KEY BENEFITS:

- Complete asset/inventory tracking information throughout the entire project. This allows our clients to know the exact location of each device and at what stage of the overall process it resides. Furthermore, this information is available in real time via Bailiwick's Online Client Collaboration Tools.
- State of the Art Operations and Facilities Bailiwick has built extensive functionality into its headquarters facility to effectively perform large configuration and staging projects. First, Bailiwick has the ability to physically route product efficiently through each process in the project. Second, our Configuration Center is equipped with key features such as conditioned power, environmental systems, and a dedicated distributed cable plant. In this lab environment, Bailiwick technicians have the ability to setup an entire LAN system and test it over extended periods of time without interruption.
- Complimentary to additional services Hardware Configuration and Staging Services are typically a single process among several in an overall project. This affords our clients the ability to have a single point of contact for large and complex rollout projects.

METHODOLOGY

The Bailiwick configuration team begins by gaining a complete understanding of the client's requirements. From these discussions, Bailiwick creates a custom tailored plan which highlights all of the project requirements, expectations, and timelines for review with the client. Once this plan is approved, Bailiwick establishes the communications channels and online collaboration tools for use throughout the engagement.

METHODOLOGY (CONT'D)

Critical issues along the way include product delivery receipts, storage needs, assembly processes, configuration parameters, testing procedures and shipping methods. Each of these details is executed in an orderly and timely fashion, with any deviations noted and resolved immediately.

Clients are provided with access to all relevant information on a real-time basis in order that they can review each process as it unfolds. This affords our clients to make certain adjustments as needed and be able to communicate in an informed manner with all other parties involved with the project. When other services such as Equipment Installation Services are a part of the overall project, Bailiwick coordinates these additional requirements seamlessly in to the overall process.

KEY DELIVERABLES

- Hardware that is configured consistently and accurately, ready for trouble free field deployment.
- Complete report of all required data including make/model/serial number, asset tag, software configuration, and any special circumstances.
- Site specific instructions, when applicable, such that anyone receiving the configured equipment will know exactly what to do with it.

Configuration is one of many disciplines of expertise at Bailiwick. If you are in search of a fully comprehensive I.T. solution ask us how our Project Management, Equipment Installation, and Client Collaboration Services teams can contribute to meeting your all of your I.T. needs.

I.T. IS OUR BAILIWICK. BY DEFINITION THE TERM BAILIWICK REFERS TO AN AREA OF EXPERTISE OR KNOWLEDGE. AS OUR NAMESAKE, BAILIWICK REPRESENTS A COMPANY OF KNOWLEDGEABLE, GENUINE, AGILE PEOPLE WHO USE THEIR EXPERIENCE AND EXPERTISE IN I.T. DEPLOYMENT SERVICES TO CREATE VALUE FOR LEADING CORPORATIONS NATIONWIDE.
